## Industry Associations:

The Business Continuity Institute (BCI) was established in 1994 to enable members to obtain guidance and support from fellow business continuity practitioners. Through its Certification Scheme, the Institute provides internationally recognised status to its members. Professional membership of the BCI demonstrates the members' competence to carry out business continuity management (BCM) to a consistent high standard. The BCI has over 4000 members in 85+ countries. The wider role of the BCI is to promote the highest standards of professional competence and commercial ethics in the provision and maintenance of business continuity planning and services.

### **For more information contact:**

DRI Australia, an exclusive representative for DRI International (DRII) is established to promote and complement DRII's professional BCM courses in Australia and New Zealand. All courses and training are conducted under the support and guidance of DRI International. We are committed to educating interested organizations and

individuals in the area of Business Continuity Management based on best International Standards and Practices with an emphasis in maintaining the highest level of professionalism and ethical behavior.

## About Crisis Commander

Crisis Commander is an emergency response system that significantly improves an organization's ability to respond quickly, efficiently and appropriately to any crisis. With mass text messaging capability and real-time update functionalities, Crisis Commander is the efficient, cost-

effective, and easy-to-use solution for contingency and crisis management.

Based on proven BCM methodologies and accessible online 24/7, Crisis Commander offers a variety of crisis, mobilisation and contingency plan templates to assist with management, execution and auditing of BCM efforts. This web-based BCM program is currently nominated for both the "Best BCP Tool" category and the "Most Creative BCP Tool" category in the 2009 UK CRI Awards.

Creatop is the exclusive reseller for Crisis Commander in Australia, New Zealand, Singapore and the Asian-Pacific region. For more information, or a live demonstration, please contact Creatop.

We provide comprehensive business continuity and security solutions that enables the seamless delivery of commercial operations before a small incident or after a full scale disaster. Our range of service is tailor-made to meet your critical business needs – covering the entire spectrum, including business continuity consulting, managing the security of your IT environment, providing duplicate systems for recovery, and accessing alternative facilities for your employees and clients.

With our acquisition of Classic Blue, a specialist provider of Business Continuity services, we have increased our skills, provide greater multivendor coverage, and have 11 recovery locations in A/NZ.

Linus specialises in the uncertain world of Business Continuity Management.

We bring clarity to the type of protection your organisation needs. We are:

- Thought Leaders
- Seasoned and accredited Practitioners
- Mentors and Advisors
- Pragmatists

We empower you with knowledge and software tools like Linus Revive to take ownership of your BCM environment, so that you:

- remain protected in a world of change
- have the capability to recover after a disaster

Our job is to tell you what you need to know and do. Our clients trust us: not because we ask them to, but because of how we behave. Our business ethics demand that we always tell you the truth. Honesty can sometimes be challenging, but that's who we are.
